

Celeste

 EUREKA

Star quality →

Celeste lets you bring a note of celestial drama to a room or public area. With up to 6 light sources on a single cable, you can easily create ambitious, large-scale arrays with horizontal and vertical dimension.

Suspend your universe

Celeste brings a brilliant decorative note to hotel spaces, public areas and rooms of all sizes and vocations.

**More lights per cable
empowers your creativity**

The integrated connector enables individual Celeste heads to be connected together vertically. This enables large-scale installations with very few cables.

← Frosted

← Clear

Each Celeste minimalist pendant features elegant artisanal cast glass discs. The light is projected through the material and is refracted outwards. In frosted glass, it takes on the look of a soft and richly glowing celestial body. In the clear glass version, it sparkles and evokes luxurious, jewel-like qualities.

↑
Vertical

← **Horizontal** →

Celestial

Vertical stems passing through each light fixture create a visual continuity with the cable. Accentuated by the glowing glass disc, this creates a striking effect.

Celeste is offered in more than 30 different preconfigured chandelier options.

Simply select the pattern, canopy type and number of light sources, then choose the overall arrangement height to perfectly fill the space.

For a uniquely spectacular light grouping, Celeste can be customized for an infinite world of possibilities.

Multiple configurations

Standard options

Canopy options

Droplet

Array

Drop

The small 3" droplet canopy has been developed to connect single-cable Celeste seamlessly to the ceiling.

Array and Drop canopy styles suspend multi-cable cluster for grouped arrangements. Array is 3 or 5 cables and Drop is available in 3 or 6 cables.
