

Outline

Rings fresh

Outline exhibits a willingness to challenge traditional notions of projector-type lighting design. It brings together modern lines and innovative technology in a revitalized product concept across multiple configurations.

Outdesign. Outperform. →

**A cutting-edge optic for
seamlessly uniform light.
A cohesive design idea
flawlessly executed.**

**Outline takes the fusion of
functionality and aesthetics
further than ever before,
opening whole new
windows of possibilities.**

The lenticular grooves of the unique TIR lens blend the light softly. The lens creates a uniform light beam with high optical efficiency.

Optic excellence

A leap in lens design.

**Advanced optics
create a more uniform
and effective light
beam enabling quality
illumination with a
smooth cut-off.**

Continuity in design

Outline's modern aesthetic can be expressed in different ways to accentuate modern work environments while maintaining a commonality of design purpose.

More possibilities →

**Carry a design theme
anywhere with recessed,
surface and suspended
mounting iterations.**

Crafting ambiance

Dining, bar and transitional areas in restaurants or hotel spaces can get a graphic, modern lighting treatment with Outline. And each in its own distinctive way.

← Twinned cables keep suspended fixtures perfectly level, even if the application requires all heads to be angled in the same direction.

← An optional uplight on suspended version can greatly improve overall lighting effect.

Point and shoot → **Clever design of both aimable and fixed projector heads is a standout feature of Outline.**

Recessed version heads rotate on magnetic ball joints that keep the head centered in the housing, preserving symmetry while snapping back to horizontal.

↻ 360°+ rotation
↘ 40° tilt

Projectors on surface and suspended versions pivot smoothly and hold their position with a friction hinge.

↻ 358° rotation
↘ 70° tilt

Project with power → **Up to 1250lm per head provides a 30 degree beam of quality aimable ambient light.**

Shaping retail

Outline brings a modern look to high-end retail establishments. Precise aimability makes illuminating displays easy. It also provides great ambient lighting that highlights merchandise and store design elements.

Standard options

Finishes

Color temperatures

Outputs

Suspended downlight LO — REG
Suspended uplight LO — REG — HO
Recessed & surface REG — HO

Color index rendering (CRI)

80+ CRI — 90+ CRI

Dimming options

0-10V dimming (DV) — Phase dimming (DP)*

*Only available for surface & recessed

Beam angle

30°

Mounting options

Three different mounting types meet a wide variety of head number and arrangement options.
